THE COUNCIL.

The Council, the governing body of the College, consists of twenty-four Members, three* of whom go out in rotation annually in July, but are eligible for re-election by the Fellows of the College. All proceedings of the Court of Examiners, the Board of Examiners in Anatomy and Physiology, the Midwifery and Dental Boards, and the several Committees are reported to the Council for approval and confirmation. The Meetings of the Council are generally held in each month of the year, except in the month of September, and at such other times as the business of the College may require. During the past Collegiate Year there have been sixteen Meetings.

THE COURT OF EXAMINERS.

The Court of Examiners consists of ten Members elected by the Council from the Fellows of the College. The Court superintends the carrying out generally the regulations of the Council relating to the preliminary and professional education of Students, and conducts the Pass Examinations in Surgery and Surgical Anatomy of Candidates for the Diplomas of Fellow and Member of the College. During the past Collegiate year the Court has held two Meetings for the Examinations for the Fellowship, and twenty-nine Meetings for the Pass Examinations for the Membership.

* If in any year one of the three retiring Members be President of the College, he does not go out of office until the succeeding year.

THE BOARD OF EXAMINERS IN MIDWIFERY.

The Board consists of four Members annually elected, viz. :—The Chairman, one of the Vice-Presidents of the College, and three other Members, who are required to be elected either from the Fellows or Members of the College, or from the Fellows or Licentiates of the Royal College of Physicians of London. The Board conducts the Examination of Candidates for the Licence in Midwifery. *There have not been any appointments made during the last two years, and the Examinations are suspended until further notice.*

BOARD OF EXAMINERS IN DENTAL SURGERY.

The Board consists of six Members elected by the Council for five years, viz. :—three Members of the Court of Examiners of the College, and three other persons skilled in Dental Surgery. The Board conducts the Examination of Candidates for the Diploma in Dental Surgery of the College. During the year twenty-seven Candidates have been examined, twenty of whom passed to the satisfaction of the Board.

PRESIDENT'S REPORT.

IN fulfilment of my duty as President of the College, I present the following Annual Report to the Council, with a view to its publication for the information of the Fellows and Members. It is written on the same plan as that of my predecessors, and I alone am responsible for the statements made in it.

At the Meeting of Fellows of the College held on the 5th of July 1876, Mr. John Simon, Dr. George Murray Humphry, and Mr. Luther Holden, who, in rotation, had retired from the Council, were re-elected, and Mr. Claudius Galen Wheelhouse was elected a Member of Council in the place of Mr. George Southam, deceased.

By the death of Sir William Fergusson, Bart., the Profession has lost one of its most distinguished and valued Members. Ever at his post, Sir William Fergusson to the very last devoted all his energies to the affairs of the College, and in the Council he was one of its leading Members.

In the Court of Examiners only one change has taken place. At the expiration of the term of office of Mr. Spencer Smith, Dr. Humphry was elected.

In the Board of Examiners in Anatomy and Physiology there have been two changes, Mr. A. E. Durham and Mr. T. P. Pick having been elected Members of the Board in the place of Mr. Holden and Mr. Cooper Forster, who did not offer themselves for re-election. The remaining Members were re-elected.

Dr. Peacock having resigned the Office of Examiner in Medicine, Dr. J. S. Bristowe was elected.

In the Board of Examiners in Dental Surgery, Mr. F. Le Gros Clark was re-elected.

Mr. Quain having resigned his office as the Representative of the College in the General Medical Council, Sir James Paget, Bart., was elected as his successor.

Mr. Flower and Mr. Parker were re-elected Joint-Professors of Comparative Anatomy and Physiology.

Mr. R. B. Carter was re-elected Professor of Surgery and Pathology,

Mr. Erasmus Wilson Professor of Dermatology, and Mr. B. T. Lowne was elected Lecturer on Anatomy and Physiology.

Since July 1876, four Members of the College of the required standing have been elected to the Fellowship.

The results of the College Examinations are thus enumerated:

The numbers, excepting in the Examination for the Fellowship, where a slight diminution has taken place, show a considerable increase; and, at the same time, a great improvement on the part of the Candidates is exhibited in the smaller number of Rejections in the present year.

The scheme for a Conjoint Examination Board in England has, after several amendments, and subject to legal consideration on the part of the College, been sanctioned in general terms by the General Medical Council.

In reference to proficiency in Vaccination, the Council decided that on and after the 1st of May 1877 Candidates for the Final Examination for the Diploma should be required to produce Certificates of Instruction in Vaccination, sanctioned by the Local Government Board.

The following answer, embodying the opinion of the Council, was drawn up by the President and Vice-President in reply to a letter from the

General Medical Council relating to the causes of the large proportion of Rejections at Professional Examinations, and forwarded to the Registrar of that Council, viz. :—

Royal College of Surgeons of England,
29th January, 1877.

SIR,—With reference to Dr. HAWKINS's letter of the 20th of July last, requesting, on behalf of the General Medical Council, certain information principally relating to the causes of the large proportion of rejections at Professional Examinations, I am desired to acquaint you that the Council, having referred the several questions contained in such Letter to the Court of Examiners and the Board of Examiners to report thereon, and having considered the Report of these Bodies, has adopted the following answers to those questions :—

As regards questions 1 and 2, the Council finds that the failures of Candidates, whether at the Primary or at the Pass Examinations, are not particularly in any one subject or any one part of the Examinations, but are equally (or nearly so) in all the subjects and parts, and that the Candidates who fail in one subject or one part are very generally found at fault in other subjects or other parts. The annexed paper gives some of the evidence on which the above statement is founded.

As regards question 3, the Council does not see in the above any reason for changing either the subjects or the conduct of the Examinations.

As regards question 4, the defects which lead to the rejection of Candidates are, exclusively, defects of professional knowledge ; but these defects are evidently, in many cases, more or less attributable to the Candidate's having entered upon his professional studies at a time when his general Education was inadequate.

As regards question 5, the Council is not prepared to say that Students of average intelligence and fair industry cannot within the time now generally allowed qualify themselves to pass their Examinations ; but the Council can easily suppose that the time is found insufficient in proportion as either the intelligence or the industry of the Student falls below a fair average.

As regards question 6, the Council is of opinion that the attainments, general and professional, with which Candidates present themselves for Examination, are now, on the whole, higher than they were ten or fifteen years ago.

As regards question 7, the Council has from time to time taken steps to promote such improvements of curriculum as it has thought necessary with regard to those parts of Professional Education for which it is more particularly responsible, and has not at present any suggestions to offer with respect to Professional Education in general.

I am, Sir, your obedient Servant,

EDWARD TRIMMER,

W. J. C. Miller, Esq.

Secretary.

The President, for the time being, of the College, was, at the invitation of H.R.H. the Prince of Wales, appointed a Commissioner in the British Section of the Paris Exhibition for 1878. Certain preparations of the Hunterian Collection having, by the lapse of time, become so deteriorated as to be valueless to the College, the Council was authorized by the

Trustees of the Hunterian Collection to remove these preparations from the Museum, on condition that they were replaced by specimens of equal value, and that the discarded specimens were offered, in the terms of the Royal Warrant, to the Trustees of the British Museum. One specimen was only accepted.

The best thanks of the Council were given to Sir James Paget, Bart., for his Hunterian oration, on the 13th of February; and also to the Officers of the College for the successful and most efficient manner in which all the arrangements connected with the presence of H.R.H. the Prince of Wales and other distinguished Visitors, both at the Oration and Festival, were carried out on that day.

The President and Vice-Presidents had an interview with the Secretary of State for War, for the purpose of bringing under his consideration the grievances of which the Militia Surgeons complained as relating to them under Her Majesty's recent warrant.

At an Extraordinary Meeting of the Council, it was decided that Section VI. of the proposed new Regulations for the Fellowship, relating to the separate examinations of Candidates for such Fellowship who are Members of not less than ten years' standing, should be struck out, in consideration of the very strong memorial on the subject from the Fellows of the College.

The legal requirements with respect to the proposed New Regulations for the Fellowship not having been as yet completed, the Council cannot at present give effect to them.

At an Extraordinary Meeting it was resolved that the Council of the College of Surgeons, regarding Women as not eligible to become Members or Fellows of the College, is therefore not prepared to admit them to be examined for those qualifications, whether at the Examinations as now conducted, or with the proposed machinery of Joint Examinations. But it was also resolved that the Council, if legally authorized, would be willing to take part in special joint arrangements under which women should be able to acquire the registrable titles for practice; and the Council authorized the President and Vice-Presidents to take such steps as they may find expedient in order to promote the amendment of the law which may be necessary for this purpose. The President and Vice-Presidents are accordingly now engaged in the consideration of the best mode of giving effect to the decision of the Council in this matter.

The Jacksonian Prize for 1876 was adjudged to Mr. William Harrison Cripps.

The College Medal was awarded to Dr. Peacock for the large and very valuable collection of rare specimens presented by him to the Museum.

A Committee appointed by the Council to consider certain questions relating to the Diploma in Dental Surgery, brought under the notice of the Council by a memorial from the Association of Surgeons practising Dental Surgery, and by a counter memorial from a great number of the Licentiates in Dental Surgery of the College, have arrived unanimously

at the conclusion, and have recommended accordingly, that the Dental Licence should in itself be deemed a sufficient qualification to enable the holder to undertake the appointment of Lecturer on Dental Anatomy, Dental Physiology, or Dental Surgery, or of the post of Surgeon to a special dental hospital, or the dental department of a recognized hospital. And, looking to the special arrangements necessary for such appointments, the Committee were of opinion that it is expedient that certificates should not in future be received from Teachers unless, in addition to any other qualification they may possess, they also hold the Licence in Dental Surgery of the College.

The Committee further unanimously recommended, with a view to giving greater importance to the Dental Licence, and thereby meet the objections of the Association, that the Dental Board should gradually increase the severity of the test by which the said Licence is obtained.

The question is still *sub judice*, but will probably be determined by the Council in July next.

The efficiency of the different Departments of the College, referred to by my predecessor in office, has been fully maintained by those who have charge of them.

PRESCOTT G. HEWETT,

President.

June 18, 1877.

THE MUSEUM.

THE Hunterian Collection, which forms the basis, and still a large proportion, of the contents of the present Museum of the Royal College of Surgeons of England, was originally arranged in a building which its Founder, John Hunter, erected for it in 1784, behind his house in Leicester Square.

John Hunter died October 16th, 1793, aged 65. By his will he directed the Museum to be offered in the first instance to the British Government, on such terms as might be considered reasonable, and in case of refusal, to be sold in one lot, either to some foreign state, or as his executors might think proper.

In the year 1799 Parliament voted the sum of £15,000 for the Museum, and an offer of it being made to the Corporation of Surgeons, it was accepted on the terms proposed by Government*.

In 1806 the sum of £15,000 was voted by Parliament in aid of the erection of an edifice for the display and arrangement of the Hunterian Collection; a second grant of £12,500 was subsequently voted, and upwards of £21,000 having been supplied from the funds of the College, the building was completed in Lincoln's-Inn-Fields, in which the Museum was opened for the inspection of visitors in the year 1813.

* The following are the Terms and Conditions on which the Hunterian Collection, purchased by Parliament, was delivered to the late Corporation of Surgeons; which Corporation having become dissolved, the Members thereof were re-incorporated by Charter, dated the 22nd day of March, 1800, under the Title of The Royal College of Surgeons in London:—

1st. The Collection shall be open Four Hours in the Forenoon of two days every week for Inspection and Consultation of the Fellows of the College of Physicians, the Members of the Company of Surgeons and Persons properly introduced by them; a Catalogue of the Preparations, and a proper Person to explain it, being at those times always in the Room.

2nd. That one Course of Lectures, not less than twenty-four in number, on Comparative Anatomy and other subjects, illustrated by the Preparations, shall be given every year by some Member of the Company.

3rd. That the Preparations shall be kept in a state of Preservation, and the Collection in as perfect a state as possible, at the Expense of the Corporation of Surgeons, subject to the annual Inspection and Superintendence of the Trustees.

4th. That there shall be a Board of Trustees, to consist of sixteen (increased to seventeen by the Lords of the Treasury in 1856) Members, by virtue of their Public Offices, and of fourteen others, to be appointed, in the first instance, by the Lords of the Treasury, and afterwards to be elected, as Vacancies may happen, by a Majority of the remaining Trustees.

5th. That the Museum shall always be open for the Inspection of all or any of the said Trustees, who are to take care that the Corporation of Surgeons perform their Engagements respecting the said Collection. That a day be appointed for the annual Inspection of the Museum, by the Trustees acting collectively as a Board; and that they are also to have quarterly Meetings, for the transacting of any Business relative to the Museum, and for the filling up of such Vacancies as may happen in the number of the Trustees; and that the Corporation of Surgeons shall engage some Person to officiate as Secretary to the Board upon such occasions, and to issue previous Notice to the Members, in which he is to state particularly whether any Vacancies are to be filled up by new Elections.

In consequence of the large number of additions, this building became too small for the adequate display and arrangement of its contents; and more space being at the same time required for the rapidly increasing Library, the greater portion of the present building was erected, wholly at the expense of the College, in 1835, at a cost of about £40,000, and the Hunterian and Collegiate Collections were re-arranged in what are now termed the Western and Middle Museums, which were opened for the inspection of visitors in 1836.

Further enlargement of the building having become necessary by the continued increase of the Collection, the College, in 1847, purchased the extensive premises of Mr. Alderman Copeland, in Portugal Street, for the sum of £16,000, and in 1852 proceeded to the erection of the Eastern Museum, at the expense of £25,000, Parliament granting £15,000 in aid thereof. The re-arrangement of the specimens was completed, and the additional portion of the building opened to visitors in 1855.

The Hunterian Collection was estimated to consist of 13,682 specimens, distributed under the following heads:—

Physiological Department, or Normal Structures.

Physiological preparations in spirit	3745
Osteological preparations	965
Dry do.	617
Zoological do.	1968
Fossils :—	
Vertebrate	1215
Invertebrate	2202
Plants	292

Pathological Department, or Abnormal Structures.

Preparations in spirit	1084
Dry preparations (including bones)	625
Calculi and concretions	536
Monsters and Malformations	218
<i>Microscopic preparations</i>	215

Of the additions by which the size and value of the Collection have been so materially increased since it came into the possession of the College, very many have been presented by Fellows and Members of the College, and other persons interested in scientific pursuits. Among the largest contributions from this source have been the Collection, consisting of 847 specimens, presented in 1811 by Sir William Blizard, and a valuable series of Pathological specimens presented in 1851 by Sir Stephen L. Hammick. At the same time the Council of the College have availed themselves of various opportunities as they have occurred to purchase specimens of interest, especially at the dispersion of private anatomical and pathological museums, as that of Sir A. Lever in 1806, of Mr. Joshua Brookes in 1828, of Mr. Heaviside in 1829, Mr. Langstaff in 1835, Mr. South in the same year, Mr. Howship and Mr. Taunton in 1841, Mr. Liston in 1842, Mr. Walker in 1843, and, deserving of especial mention on account of the great number and value of the specimens acquired, that of Sir Astley Cooper in 1843.

The Histological Collection, of which the 215 Hunterian specimens (prepared by Hewson) constitute the nucleus, was chiefly formed by the late Professor Quekett, with considerable additions by purchase from Dr. Tweedy, J. Todd, Mr. Nasmyth,

and Professor Lenhossek. It now contains upwards of 12,000 specimens, all arranged and catalogued so as to be readily available for reference.

The superintendence of the Museum is confided by the Council of the College to a Committee of its Members, which Committee has held five meetings during the past year.

A summary of the progress made in the preservation, arrangement, and augmentation of the Collection will be found in the following Report.

ANNUAL REPORT OF THE CONSERVATOR TO THE MUSEUM COMMITTEE.

(Presented July 2nd, 1877.)

PATHOLOGICAL COLLECTION.

A most important addition has been made during the past year in the collection of specimens, mostly, but (as will be seen by the list appended) by no means exclusively, illustrating diseases and malformations of the heart, amounting altogether to 176, presented by Dr. T. B. Peacock, late one of the Examiners in Medicine to the College. This collection is especially valuable, because it contains the specimens upon which Dr. Peacock's well-known contributions to pathological science have been based, because the specimens are all catalogued and most of them described in published works and journals, and are all in excellent condition, having been very carefully prepared when recent, and subsequently preserved in a manner very unusual in private collections. Nevertheless their acquisition involved some labour to the Museum officials, as, although scarcely any dissection or further preparation was needed to fit them for the Museum, they had all to be remounted in jars of the same character as the remainder of the series with which they are incorporated; and so large an addition has necessitated a complete revision and rearrangement of the Catalogue of the department to which they belong. The Honorary Medal of the College has been presented to Dr. Peacock by the Council in recognition of the benefit conferred upon Pathological Science and the Museum of the College by this gift.

In addition to Dr. Peacock's specimens many others have been added to the Collection during the year, from various sources, and are now exhibited in the Theatre.

After having had the special charge of this Department for six years, to the very great advantage of the College and Museum, Dr. Goodhart has

been compelled, by the increase of his other occupations, and especially his appointment as Assistant Physician to Guy's Hospital, to discontinue his valuable assistance in the Museum. He has, however, been good enough to promise to complete the Catalogue of the Pathological Specimens added since the publication of the Supplement of 1863, and which is now very far advanced.

This may be the place to mention that a large collection has very recently been presented by Dr. Arthur Farre, who long occupied the post of Examiner in Midwifery at the College, consisting chiefly of specimens illustrating the physiology of gestation and the development of the fœtus, but including many of the pathology of the female reproductive organs. These having arrived at a time when we have all been greatly occupied (first by the College Examinations, and subsequently by the preparations for the present annual Exhibition of new specimens), have not yet been thoroughly overlooked, and I am therefore not able to give any detailed report upon them. They are, however, mostly not mounted preparations like those of Dr. Peacock, but store specimens, which will afford invaluable material for making preparations and for research, and are in such abundance as could only have been obtained by a zealous collector having exceptionally good opportunities, extending over a long period of time.

OSTEOLOGICAL COLLECTION.

The Osteological Department has suffered a great loss in the death, in July last, of a very skilful workman, Edwin Horniblow, who had been in the service of the College for twelve years, and by whom the whole of the specimens of separated bones in the upright glass cases in the Eastern Museum have been mounted, and much other valuable work in the Museum performed. The senior articulator, Mr. James Flower, has unfortunately been compelled to forego work during a considerable part of the year owing to ill-health, and, consequently, the number of articulated skeletons added to the Collection is not so numerous as in former years. It includes, however, some of great value; among which are—

A female Tiger, shot at Jeypore, Feb. 5th, 1876, by His Royal Highness the Prince of Wales, being the first animal of the species which fell to the Prince's gun during his Indian tour. The skeleton is articulated with all the recently introduced improvements, and was finished and in its place, and submitted to the inspection of His Royal Highness, on his visit to the Museum on the 13th of February last.

An adult *Platanista*, or Freshwater Dolphin of the River Ganges, one of the most singularly modified of the Cetacea. Although young specimens are not uncommon in collections, full-grown animals are very rare, owing to the difficulty of their capture. This is, I believe, the only one in any museum in Europe. We are indebted for it to the great liberality of Dr. John Anderson, Professor of Comparative Anatomy, Medical College,

Calcutta, who has written an excellent monograph on the anatomy of the animal.

Two skeletons of the South American Fur-Seal (*Otaria falklandica*), one of which is articulated. They were obtained on Lobos Island, near the mouth of the River Plate, by S. A. Lafone Quevedo, Esq., of Montevideo, at the instance of F. Coleman, Esq., Secretary to the Falkland Islands Company.

Probably in consequence of the attention directed to the Comparative Anatomy of Man, by its having been selected as the subject of part of the Hunterian Lectures, an unusual number of additions have been made to the collection of human crania of different races, already one of the most valuable sections of the Museum. The most important of these are:—

A series of ten skulls of Esquimaux, taken from a deserted burial place on the Island of Upernavik, Greenland, by Mr. Arthur C. Horner, Surgeon to Captain Sir Allen Young's yacht the 'Pandora,' and one from the still more northern settlement of Netlek, Baden Bay, coast of Whale Sound, almost the extreme northern limit of the human race. These were collected on the 'Pandora' Arctic cruise of 1876, and presented by Sir Allen Young, R.N.

Thirteen crania of Papuans, from the south-east coast of New Guinea, collected in 1874, during the exploring voyage of H.M. ship 'Basilisk,' and presented by Dr. P. Comrie, Staff-Surgeon R.N. These skulls are of great interest, as they are all well authenticated, and from localities the inhabitants of which are at present very little known, having been scarcely ever previously visited by Europeans. They are described by the donor in a paper entitled "Anthropological Notes on New Guinea," in the Journal of the Anthropological Society, vol. vi. p. 102 (1876).

In order to render the Collection more available for those who wish to make a serious study of physical anthropology, several instruments for taking precise measurements have been purchased for the use of the officers and visitors, and a stereograph invented by Prof. Broca, of Paris, for obtaining accurate delineations of human crania and other objects of natural history, has been presented to the Museum by the President, Prescott Hewett, Esq., F.R.S.

Most of the preparations used by the Board of Examiners in Anatomy have been renovated and supplied with fresh spirit, and 46 of them have been remounted during the year. 110 preparations of the Physiological Series have been remounted, and 49 new ones have been added, many of which are of considerable interest, as will be seen by the annexed list.

During the year 1876 the visitors' book was signed by 7936 persons being 1443 in excess of the previous year. The Museum has also been opened on several occasions on Saturday afternoons to members of various scientific associations and working men's institutes, and short explanatory

lectures given upon some portion of the collections. These visits seem to have been fully appreciated by those who have joined in them.

THE LIBRARY.

THE formation of a regular Library may be said to have commenced in the year 1801, at which time and in succeeding years presentations and bequests of books, often in considerable numbers, were made to the College—the principal donors being Dr. Baillie, Sir Everard Home, Sir Charles Blicke, the widow of Mr. Sharp, Sir Ludford Harvey, Dr. Fleming, Mr. Cotton, and Mr. Long. The Court of Assistants also directed from time to time the expenditure of small sums of money for the purchase of books, and eventually voted a sum of £100 per annum for this purpose. Sir Charles Blicke, in the year 1816, invested the sum of £300, the proceeds of which sum were to be devoted to the same object. Some of the purchases thus made were considerable, as in the cases of the Libraries of Mr. Pitt, Mr. St. Andre, and Sir Anthony Carlisle, and books of importance were added at the recommendation of the Conservator of the Museum and others. In this way a Library of considerable value was gradually accumulated, but it was only accessible to a limited number of persons. In 1827 active steps were taken to render it more generally useful, and with this object catalogues and extensive lists of desirable acquisitions were ordered to be prepared. Large sums of money were also expended during this and the ensuing two years, amounting in the aggregate to nearly £6000. A Librarian was appointed, and in 1828 the Library, then containing 10,500 volumes, was thrown open to members of the College, and all other persons engaged in the pursuit of natural science were freely admitted. This large collection, thus opened, offered great facilities to the studious. By means of extensive additions, the collection was well nigh complete in works on Medicine and Surgery, both domestic and foreign, whilst it was also very rich in publications relating to the accessory sciences. The transactions of Academies and Societies, and the collection of periodical publications in general, owing to their completeness, and the difficulty with which access can be obtained to this class of literature elsewhere than in large libraries, formed a valuable feature. The maintenance of the Library from that time to the present has involved a very considerable expenditure of the funds of the College. It has been the object of those to whose care it has been confided to ensure the completeness and excellence of the collection, and great facilities of reference have been provided by the preparation of additional catalogues and indexes of subjects. During the last year there have been added to the Library 494 volumes, including 156 new works and 336 tracts, pamphlets, essays, reports, and theses. The entire collection now consists of 36,133 volumes, comprising 14,414 works, and 38,053 tracts, pamphlets, essays, reports, and theses.

The following is a list of the donations that have been presented to the Library during the year 1876-77, viz.—
